We offer a Lunch Bunch program for the 2's, 3's, and 4's from noon until 2pm.

The purpose of the Growing Tree is to provide a loving, learning Christian environment where children can explore their world and develop academically, physically, emotionally, and spiritually. We feel that our school offers a good beginning for a child to learn and play with other children outside the home. This program emphasizes total development for young children by providing them with fundamental experiences in which to grow and deepen their understanding of God's love.
